

# Foundation progression grades

The following pages provide detailed information about which modules you need to study and what grades you need to be guaranteed a place on your chosen undergraduate degree programme.

The Foundation programme at INTO University of Exeter prepares international students for direct entry to first-year undergraduate programmes at University of Exeter or other UK institutions.

On successful completion, you will be awarded the University of Exeter International Foundation Certificate. This guarantees entry to a wide range of degree programmes at the University of Exeter (subject to achieving the required scores for specific degree programmes).

There are four pathways leading to undergraduate degree programmes:

- Humanities, Law and Social Science
- Economics, Finance and Management
- Engineering and Mathematics
- Science
